TOPICS OF THE TIME.

The contest over the Bell Telephone patents has brought out some curious facts, one of which is that Edison, who is the real inventor of the machine, sold his right to the Western Union for a royalty of \$6,-000 a year for seventeen years, and that the Western Union is making \$250,000 a year out of it by sub-letting the privilege to use it.

President Cleveland has come to a direct issue with the Senate in refusing to comply with a resolution of that body requesting him to furnish the papers which induced him to make certain appointments. Grover says he will not do anything of the kind, consequently the relations, between the white house and the senate chamber, are not as pleasant as they might

It has often been remarked that the war was unfortunately the cause of preventing many young men from getting an education. An example night be made from an application recently sent to the senate committee on pensions. The applicant, after giving his name, regiment and date of enlistment as a drummer boy, says 'I was cicked by a Muel in the lower part of the stumik, nere the hart."

A TALK WITH CROOK.

About his Sierra Madre Indian Fight, in which some Light is Thrown upon that Affair.

"Crook was captured on that Sierra Madre campaign, I know he was. I got all the facts from Archie McIntosh, who was Crook's confidential agent in the matter, and acted as a mediator between himself and the Indians."

Such was the assertion of General A. A. McDonald, made to me last March during the General's visit to Flagstaff.

Not Symptoms, but the Disease

It would seem to be a truth apprepatches carefully pasted in books, and fessors of the healing art, that to reone of them reveals a bit of war history that is interesting, showing the meanness of General Halleck, and the way in which he tried to suppress Grant, whose growing popularity he was envious of. When the fall of Fort Donelson thrilled the people of the North and the name of General Grant, till then almost unknown, was on all lips. General McClellan, then cammander of all armies, telegraphed to General Halleck, commander of the West, with headquarters at St. Louis, "Where is General Grant?" meaning of course to enquire as to the whereabouts of Grant's forces and whether he had moved forward from Fort Donelson. To this telegram general Halleck replied, "In answer to your question would say Grant is somewhere in the rear of his army, drunk."
